January 19, 2010 - Charlottetown, Canada - Bight Games are announcing the immediate availability of *Fleeced! - Shear Terror* on the App Store for iPhone and iPod Touch.

*Early previews have been overwhelmingly positive and [Pocketgamer.co.uk](#) has included *Fleeced!* on their list of the 10 most anticipated games of 2010.*

The somewhat bizarre premise of feuding Pseudo-Peruvian brothers, llama shearing and canons make for a truly unique tailor-made experience for the iPhone. Bight CEO Stuart Duncan says "There were times when even we thought, is this too weird? Will people get the sense of humour? I think it's fair to say that given the great response we've been getting that people really love the game."

*To support the launch of *Fleeced!* two of Bight's other popular games, *Puzzlings* and *Kill All Bugs* will be available for free during the launch window. *Fleeced! Shear Terror* is available for \$3.99 USD from today.*
